

Guidance for order (2025-08)

Due to the implementation of the BRC certificate, all orders should contain the customer's Item, if you do not have your own numbers, it is necessary to use ours.

In the case of projects accepted from February 2023, the individual project number is placed above the table with information about colors, which is located inside the file.

For older projects, the number is included in the name of the project file, below we present a more detailed instruction on how to read the numbers:
